

# Gruppe 7: p0wD3-R.app

## Logo

## Kurzbeschreibung

DESIGN:

- speculative design

- futuristic
- provocative and ironic design
- technological

#### CONTEXT:

*In a — perhaps (hopefully?) — near future, drug consumption has become legal and it is up to the consumer to dose and manage themselves individually.*

*However, like any ethical, democratic and modern society, the government does not want to leave its citizens completely autonomous and without precautions.*

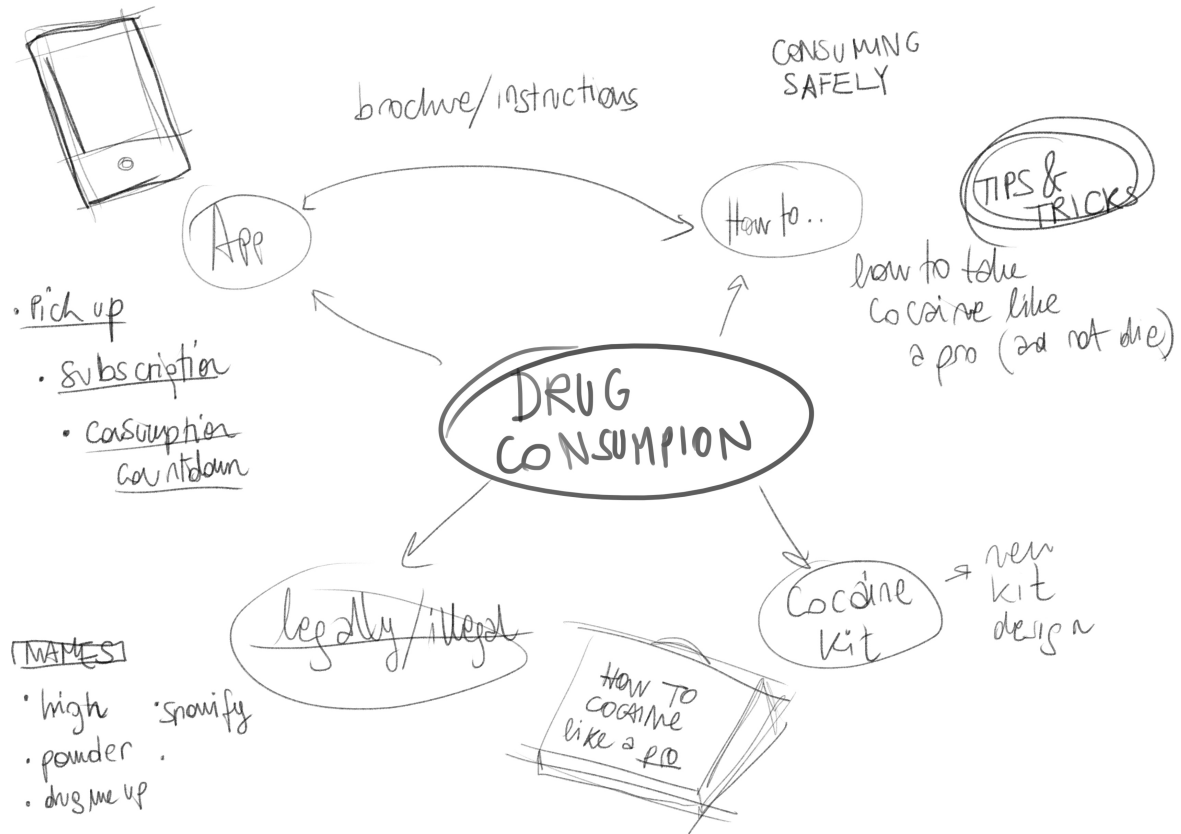

*This is where Fatimah and Janosh's design agency kicked in: teaming up with chemists, politicians, and ex-drug addicts they prototyped (and in the near future also finalize) the app **p0wD3-R**.*

## Prozess

*Recherche/Themenfeld, Ideeausarbeitung (Skizzen/Inspiration),  
Umsetzungsprozess*

#### THEME:

- Drug consumption
- legalisation
- citizen control

## APP

### Why should you download p0wD3-R?

- clear and safe guide on how to take drugs safely
- everything you need to know about effects / side effects
- timer and countdown for each and every drugs consumption (No more overdoses!)
- map with retailers and dealers near by.
- best deals and offers, customised just for you based preferences and consumption history.
- drug categories like party, chillax, concentration and workout drugs.
